***Allowable Subject Matter***

1. Claims 43-76 and 85 are allowed.
2. The following is an examiner's statement of reasons for allowance: After reviewing of the prior art reference, the Examiner find that Applicant's argument found at page 9 of Remarks filed on 02/22/2007, for claim 61 is persuasive for placing the claim 61 in condition for allowance. Dependent claims 63-70 are also allowed.

**Withdrawn claims 50-60, which depends from allowed claim 61 are hereby rejoined and are also allowed.**

3. Claim 85 is allowed because it includes similar allowable subject matter of claim 61.
4. Claims 43-49, 62 and 70-76 indicated allowed in the office action of 10/17/2006.
5. Claims 43-76 and 85 are allowable. The restriction requirement between inventions, as set forth in the Office action mailed on 12/05/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 50-60, directed to docking module (claim 61) no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present

application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
